

“QST, QST, QST. Calling all radio amateurs.

Special Event Station Whisky Seven Quebec, calling for

(early?) check-ins to the 2026 Shakeout Preparedness ‘Net.

Checkins please come now with your call sign, name and location.

This is Special Event Station Whisky 7 "Quake", calling for check-ins to the 2026 Shakeout Preparedness ‘Net.

Welcome to the **[W7Q Shakeout ‘Net]**. This net will meet at various times on various bands from October 14th through the 18th. See CoosRadioClub.com/W7Q for a link to the calendar. We are anchoring the ‘Net in Netlogger.org. Relay Stations are welcome.

Tonight we are discussing

My name is **[Your Name]**, my call sign is **[Your Call Sign]**, and I am located in **[Your Location]**. I will be your Net Control Station for this evening’s session.

This is a directed net. All communication must go through Net Control. We are utilizing **NetLogger** to manage our check-ins and log traffic tonight. If you have the NetLogger software open, you can monitor the real-time roster by selecting this net from the active net list. The Almost Instant Messenger (AIM) feature is also active for side-text communication.

The W7Q net is established for **[dissemination and discussion of Ham radio earthquake preparedness information]**. We will always break immediately for any emergency or priority traffic. If you have an emergency at any time, please use the word 'Break' or 'Emergency' followed by your call sign.

We will now take check-ins. When checking in, please give your call sign slowly and phonetically, followed by your name and location.

- Are there any mobile or portable stations wishing to check in? Please come now.
(Pause for responses)
- Are there any general check-ins from any location? Please come now.”

Net Question 1.) prepare your best answer.
